

Ninety-five percent of my radio listening time is tuned to K-Love 88.9 KYLV in Oklahoma City. I enjoy the fact that it is commercial free, contemporary christian format. It provides me with musical listening pleasure, news that is largely family friendly and information of local events that interest me. There are only one or two alternatives in OKC that are even close to acceptable if this station were not available and they are not of the commercial free variety which concerns me greatly. I believe that it is in the public interest to keep this station available in OKC and throughout the nation.
